

"Saudi Infrastructure Expo"

Based on the national transformation approach that the kingdom of Saudi Arabia is pursuing with the leadership of the custodian of the two holy mosques and the crown prince (may god protect them) al-rawaf company for contracting since its founding on 1996 aims to essentially contribute to sustainable growth and institutional work, and enabling access to local and international resources

The company does constant development with the need to adapt to changes in the nature of business implementation for infrastructure and water technologies and energy conservation to keep up with the speed of technological developments and transition to diversified building methods and capability of finding good fertile ground that allows the contracting sector with its members, companies and institutions, to practice their business and to achieve high potential easily which assures the smoothness of work completion and its delivery to the client and consumer

We made sure that our participation in the Saudi infrastructure exhibition (SIE) prelude to achieving great leaps in the field of infrastructure in the kingdom of Saudi Arabia, and to provide unique opportunities to innovate and invest in the sector, the exchange of knowledge, and encouraging the cooperation between contractors and those who are interested, which helps in the growth of the national economy and to achieve the goals of vision

Our most highlighted tasks lie in coming up with unique work and unique designs that adds to and develops current and future works of the company that builds upon the long standing legacy that al-rawaf company is pursuing, where we insure that the outputs and the products are considerate of the values of project management and the preservation of business quality and the sustainability of projects and businesses

And our belief that "our dream is our reality" with what we have from our vision and our capabilities, we will continue developments and improvements to achieve sustainability and institutional work through observing and measuring the quality of performance, until the contracting sector in the kingdom of Saudi Arabia reaches the pinnacle of excellence, success and leadership on a local and international level

Mr. Khalid Ibrahim Al-Rawaf

The (CEO) of Al-Rawaf company for contracting
