

Arabian Auto Agency (AAA) is one of the leading suppliers of trucks and equipment in Saudi Arabia. AAA offers a wide range of global brands and boasts over 50 years of extensive experience. AAA's commitment to providing the best services to its customers makes it the ideal choice for those seeking high-quality trucks, equipment, and excellent service in Saudi Arabia.

On the other hand, CASE Construction Equipment boasts a rich history spanning over 185 years. From pioneering steam engines to revolutionizing road construction, CASE has been a driving force in shaping the world around us. As a leading manufacturer of construction equipment, CASE offers a comprehensive range of solutions, from the first-ever factory-integrated backhoe loader to today's skid steers, excavators, wheel loaders, vibratory compactors, motor graders, and dozers. CASE's commitment to excellence is reflected in its industry-leading warranties, parts supply, and global network of dedicated dealers.

we are participating in the Saudi Infrastructure Expo 2024 for several reasons, including:

1. To demonstrate our commitment to supporting the infrastructure sector in Saudi Arabia.
2. To showcase CASE equipment, a global leader in manufacturing construction equipment for over 185 years. CASE equipment is known for its durability, efficiency, and effectiveness, making it the best choice for customers looking for top performance with the lowest operating costs. We are displaying a wide range of CASE equipment, including excavators, backhoe loaders, wheel loaders, skid steers, and more.

We look forward to meeting our current and potential customers, project owners, contractors, and all those interested in high-quality construction equipment, to build new relationships in this industry.

It's worth noting that Saudi Arabia is home to all major projects, and we are committed to providing high-quality equipment and services to meet the needs of this growing market. We are confident that CASE equipment can play a significant role in the success of these projects.
